BY CHARLES G LELAND. My lady sweeps a ong in state, The minstrel barpeth merrily, The satior plows the foaming ces, The bunt man kills the good red deer, and the soldier wars without a fear;

But fall to each what fer betall, The farmer he must fied them all. Smith hammereth cheerily the sword, Priest prescheth pure and holy word, Dame Alice worketh broidery well, Clerk Richard tales of love can tell; The tap-wife sells her foaming beer, Dan Fisher fishes in the mere, And courtiers ruffle, strut and shine,

But fall to each whate'er befall, The farmer he must feed them all. Man builds his castle fair and high,

Est work or rest, whate'er befale, The farmer he must feed them all,

Church New York on last Sunday, preached a sermon treating of "Our Celestial Neighbors." The text was, "And it came to pass that the breest died and was carried by the angels into Abraham' bes m"-Luke xvi., 22.

It other worlds are inhabited, said the Doctor, what relations do the inhabitants thereof bear to us? The last analyses of science favor the supposition that other planets are populated, and we might rest the whole question upon thes, scientific deductions. But we have a surer and more ample source of information, Let us turn to Revelation and ascertain what Invalids who have lost but are recovering those inhabitsus are and what they do. Bo liet in the existence of good and evil angels is as old as time. The Romans called them genii. Stomach Bitters. Not only does it impart the Greeks called them damons (knowing soid state of the stomach, makes the bowels act ones) I was Hessid who sang, "Milions of spiritual creatures walk the earth has ea-This probably is the inspiration for the belief in the existence of saryrs, lawns, nymphs and other ourtous creatures. It was the firm belief of Secrates that he had a guardish angel whom he called "my delmon," and when asked on a certain accession whether evil would befall him on that day he replied, "My daimon did not sive me notice this morning of any evil that would befall me to d y " This is more than poetry fancy; it is to embodiment of an old radition, venerable as the ages. We have a poet's dream or the historian's tradition. From Genesis to Revelation the Bible is full of this

> Scriptures say as to the creation, pature and mission of our celestial neighbors? The fact of their existence is muliquisple. The Master sate that 72 000 angels would come to His rescue if requested. St. Paul speaks of an "incomerable company of angels." St. John saw before the throne 100,000 000 of these angelic beings, and saids "thousands of thousands." Their sociquity is immense. Geologists esti mate the age of our earth at 13,000,000 of years, but the angels witnessed the creation of our placet. It is a well established fact that there are no gaps in nature. But there are connecting links from in rganic matter up to be highest total igence-min rais, vegetables, insects, reptiles, fi-nes, beas s, birds, men, angels, Ged. The beings of other worlds have souls and bodies. There are ranks and orders of these calescial beings, called by St, Paul thrones, dominious, principalities and powers. They excel in streng h; their wistom is vast and their natures indestructable. The question arises, if other worlds are inhabited by intelligent beings, are they incuded in the plan of redemption? The old infidel of j clion is that ina much as other worlds are populated, and if God has but one Son, He would not cave given Hun to save the singers of this small earth. But Christ's death is not out fined to the inhabitance of this placet. It was P ul who sad 'that at the name of J sus every koee should bow, of things in neaven and things on earth and things under the earth; and that every tougue should confess that Jesus Christ is Lord, to the glory of God, the Father." Unrise is the mediator for all signing creatures wherever found to the universe of Jehovan. He died to atoce for sin wherever committed, and insemuch es we believe in a Savier whom we have not seen, so if the inhabitants of Mars and Venus are sinners they can be saved through Christ. For it is said that the angels rejoice over one sincer that repent We ste ask d, Can we exchange places th." with these calestral neighbors? They have visited our earth and do visit it Low; and they carried L z rus to Abraham's bosom, and escorted El j ih and Corist to the abodes of the blessed. We are also a kid, How are we to mech heaven?, The text is the sufficient answer.

JAS. F. CARLIN & SONS,

ALEXANDRIA GAZETTE

-1881--

The ALEXANDRIA GAZETTE, begun in 1799, is the oldest newspaper in the State, and the only daily published in Northern Virginia. It has survived, with few exceptions, all the public presses in America which saw with it the dawn of the nineteenth century. It lives, too, not in decay, but full of life and vigor, giving all the news, telling the truth without fear, favor or affection, trenching on the privacy of no man's home, but full to the brim with all public information, and giving daily honest judgments of public men and public measures

It furnishes the news telegrams of the New York Associated Press and of Reuter's European sgency, being, with but three exceptions, the only paper between Baltimore and Richmond that is thus connected with the great fountains of the world's news.

With the coming year all the long tried and improved methods of making a standard newspaper will be continued, with such additional facilities as past experience justifies the proprietor in believing will add to the capacity of the Gazette to serve its readers. It expects to render faithful service to the city, the state and the country by a candid criticism of men and events in the interest of the people of the Commonwealth of Virginia.

To meet all the demands upon it, the Gazette will be made a WASHINGTON and RICH-MOND NEWSPAPER, as well as an ALEX-ANDRIA JUURNAL. The Richmond and Washington news of past years has left little to improve, but yet greater effort will be made to insure absolute perfection in these departments.

The city of Alexandria will find as usual its daily history in each evening's issue, and the intelligence of that section of the Commonwealth which nature has bound to Alexandria by th curvature of its mountains or the courses of its rivers as well as that portion linked to us by the iron bands of railways, will be assiduously

The Business and Commercial columns of the Gazette will be filled with the earliest and most exact commercial news, edited with such painstaking care as will render an error, where even slight errors are dangerous, impossible.

The Cattle Markets of all the leading points of the world whose rates affect this market will be quoted, and regular statements of the Baltimore, Georgetown, Washington and Alexandria sales of cattle will appear.

The Flour, Grain and Produce movements will be noted daily, and the sales of the Alexandris and neighboring markets given with accuracy and dispatch. The Grocery and other markets will receive constant attention, and the money or stock markets of the country epitomized for its columns, full details being given to all stocks, &c., which find investors in this section of the country.

The advertising columns of the Gazette offer inducements which experience has shown to afford greater returns for a small investment than any other which can be made.
